PRINT-READY FILE CHECKLIST

QUIXPRINT / Keep this handy before sending artwork to print

SIZE AND LAYOUT

- ☐ Document matches the product’s finished size
- ☐ 0.125″ bleed added on all sides (unless template specifies otherwise)
- ☐ Backgrounds and images extend to bleed
- ☐ Text and logos stay within the safe zone
- ☐ Key content stays clear of folds and binding

IMAGES

- ☐ Images are 300 DPI at final size for standard print
- ☐ No undersized web or social-media images
- ☐ Vector logos and icons used where possible

COLOR

- ☐ CMYK workflow or printer-approved color profile
- ☐ Black ink values selected intentionally
- ☐ Brand colors checked for print

TYPE

- ☐ Fonts embedded or outlined
- ☐ Names, dates, prices, phone numbers and URLs proofread
- ☐ QR codes tested

EXPORT

- ☐ High-quality PDF exported
- ☐ Bleed included in export
- ☐ Final PDF opened and checked

BLEED: +0.125″ | TRIM: finished size | SAFE ZONE: 0.125″–0.25″ inward

Always follow your specific product template and production instructions.
